

Infusing the Fragrance and Colour of Advent

Spirit Conceiving

Out of Love's infinite glory, may Love give you the power through the Spirit for your hidden self to grow strong,
so that Christ may dwell in your hearts through faith.

And then being rooted and grounded in love,
you will have power, together with all the saints, to comprehend
the length and width and height and depth of the love of Christ, and to know this love that surpasses knowledge,
that you may be filled with all the fullness of God...

Ephesians 3:15-19.

- * Filled with desire, we come as a communion of hearts. Heart in heart, we centre in the ground of our heart, into the loving, infusing, of the Spirit within us and amongst us. We come, one with each other and with the soul of the earth holding the beauty and the anguish of creation, in this *point de temps* of the crisis of climate emergency, in the wake of the climate summit in Glasgow. We feel the tears of creation groaning in the one act of giving birth. We hold our heart-ache, our lament, our desire to find new ways of oneing humankind and the earth.
- * Ever attentive to the heart-ache of the planet, we seek to embrace our fragility, to compassionately hold our shame, to seek the ever-fertile, creative flow of Spirit pouring out love to the length and width and height and depth of the universe, and beyond, drenching, soaking us in this oneing energy field of mutual indwelling.
- * Enraptured by the loving, we sense this *Ruah, Spiritus*, Spirit, eternal feminine, deep wisdom of Christ, infuse a fragrance, instilling an unquenchable yearning for union, and arousing a desire for creative communion. We breathe in harmony as she breathes, inspiring and expiring, infusing every particle of being with illuminating light. We inhale her longing for us to conceive, to be filled and overflow with Love's fullness .
- * We feel *Ruah's* stirrings gathering and centering and feel the overflowing fullness of the fountain of light filling us from the depthless-ness of our heart-womb, dazzling us with the brightness of the Christ being conceived in us, making a home in us. Sensitively, we infuse into the loving. We feel ourselves being infused into the Christ light, becoming pregnant with divine light, being filled with the utter fullness of God.
- * The power of *Ruah's* oneing creates a oneing field, a flowing abyss of love conceiving and illuming our hidden selves deep within the Christ child. We feel the oneing of the marrow of our spirits, the oneing of our heart beats, loving us into life in Christ.
- * As the silence and stillness deepens in this luminous conceiving and oneing, we realize that our heart womb and the heart-womb of earth indwells the divine heart womb, the Kolpon, the infinite hollow of spacious fertility. We expand in our capacity to be pregnant with the divine fetus, to feel the radiance, the awe, the wonder as we become more and more absorbed in Love's oneing.
- * We are present in the presencing, cherishing the loving of the Spirit conceiving and mingling, teaching us how to remain, abide, make a home, repose within this fetus of Christ light and be ever attentive to this illumination.
- * Melodiously, we release this loving, oneing fertility of the Spirit conceiving, out into the world, connecting within our communal soul and the soul of the earth, strengthening our original human-earth oneness.
